## Open in the start menu, Oracle VM Virtual Box

First Select Import Appliance.

A window will pop up and then we will open up the OVA file by browsing to the file location under C:\VirtualMachines

Import Virtual Appliance
Appliance to imporit
VirtualBox currently supports importing appliances saved in the Open Virtualization Format (OVF). To continue, select the file to import below.

## Select the next button

Check the box that says "Reinitialize the MAC address of all network cards" and then select Import.

Ар тһ	pliance settings ese are the virtual machines co	ontained in the appliance and the suggested settings o
imp clic	ported VirtualBox machines. Yo king on the items and disable o	u can change many of the properties shown by double others using the check boxes below.
De	escription	Configuration
Vir	rtual System 1	
	😪 Name	Sage-5.13
	🥥 Product	Sage-5.13
	🥥 Product-URL	http://www.sagemath.org
	夣 Vendor	The Sage Foundation
	🥥 Version	5.13
	🗮 Guest OS Type	👍 Fedora
	🔲 СРИ	1

Importing shouldn't take too long and may stall some at 99%

NOTE: Sometimes I have seen Virtual box crash after it gets to 99% but after closing and restarting the program everything is fine to continue and you should see you VM like so...

## After about a minute or so you will arrive to the start screen
